90A/12V + 45A/24V

NEWS!

90A/12V or 45A/24V

Keepower 90A MAX

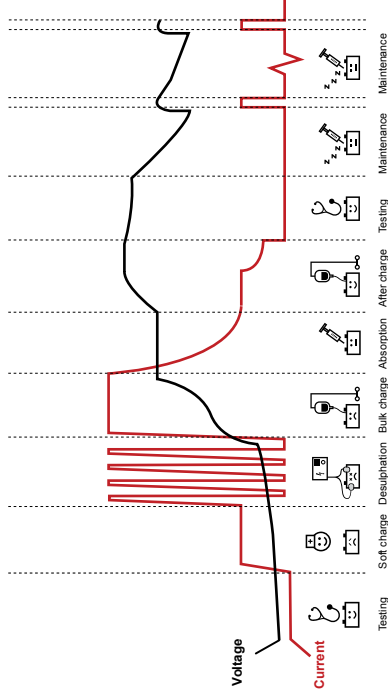

BATTERY CHARGER

- It provides optimum charging for batteries with fixed electrolytes (gel technology or fleece/AGM technology)
- It can charge a deeply discharged battery from 0,40V by using a unique intelligent charging curve.
- It allows you to adjust your charging parameters and it is possible to save custom parameters.
- Large display showing all selected parameters.

The intelligent charging curve

Keepower 90A MAX 90A/12V or 45A/24V

Product specification

Nominal battery voltage	12V/24V
Charge Current	90A/45A
Battery size	12V 15 - 1800Ah 24V 8 - 900Ah
Max. total outputpower	1600W
Input voltage (Mains voltage)	230Vrms ± 10% 50/60 Hz ± 3Hz
IP	20D
Charger cable size	10mm ² /4500mm
Length main cable	3000mm
Weight	10.50kg
